

Here is a great video in connection with the effects of storm water runoff on our local waters. This film was developed Corey Humphrey - District Manager Nassau County Soil & Water Conservation District,(1864 Muttontown Road, Syosset, NY 11791(516) 364-5860) through a NYSDEC grant awarded to the Nassau County SWCD. Please click <https://youtu.be/ATNy-valPXI>. You can also visit NassauSWCD.org and download the free education outreach PDFs that they have developed to compliment the film. These downloads include a watershed poster, stormwater tri-fold and a children's coloring book that are free to use and disseminate to others. Here is the link to request a hard copy of the film and outreach packet:
